It's Saturday morning and Olivia, 16, is going into town with some friends like they usually do.

Their day begins in a coffee shop. We have frappuccino coffees and chat, Olivia says. While they're there, they also do some online shopping. We like finding the latest fashions on Pinterest or Instagram. Like adults, many teens want good value for money, 'If there's something new I want, but it's too expensive, like these cool trainers I saw the other day, I won't get them till they're on sale a few weeks later. You can usually get anything new that way if you're prepared to wait! And you can sometimes get discounts at the checkout when you're paying,' says Olivia. Although girls are more likely to spend money on jewellery or make-up, both sexes are into looking good and buy high-quality hair and body products. They're also keen on keeping their mobile technology up to date. This means downloading apps is a favourite activity.

Teens shop on the internet because 'online companies don't always charge you as much money and it's easy,' says Olivia. But they still enjoy looking around the shops. "For example, sometimes we go to a gaming store and try out several new games. A lot of games cost more than we can afford, so we wait until there's a special offer, when you can get two games for the price of one and that kind of thing. . There are plenty of second-hand websites, too, where stuff's even cheaper. There's no brand new stuff on them but you can save a lot of money."

After that, Olivia and her friends go for lunch. "I love any healthy food, especially organic stuff,' says Olivia, We go anywhere that serves it-plenty of places do, but it can be expensive. After that, I don't usually have any money left!" laughs Olivia.
