

Reading Comprehension Test, sem.1

A Day in the Life of Sarah

Sarah is a seventh grader who follows a busy schedule. She always starts her day by doing some household chores. She usually does the washing and often helps to cook breakfast. After breakfast, Sarah goes to school where she studies various subjects including maths, history, geography, biology, chemistry, and physics. Her favourite subject is ICT, where she learns how to use a computer, send emails, and make video calls.

In her free time, Sarah loves to do arts and crafts. She builds model planes and makes jewellery like bracelets and necklaces. Sometimes, she flies a drone in the park with her friends. She is always excited to try new hobbies and free-time activities.

Sarah uses different gadgets every day. She has a laptop, a USB flash drive, and a smartphone. She often downloads apps and songs. At school, she uses a computer with a mouse, a keyboard, and a printer. She has a screen and speakers at home where she plays multiplayer games with her friends. She always remembers to charge her mobile phone and connect to the Wi-Fi.

Every weekend, Sarah and her family go camping. They pack a tent, sleeping bags, a first aid kit, a torch, matches, a whistle, and insect repellent. Sarah is interested in nature and loves spending time outdoors. She thinks camping is very exciting and never boring. Her family travels to different places by car, but sometimes they take a bus or travel by plane.

Sarah enjoys watching TV in the evenings. Her favourite shows are wildlife documentaries and talent shows. She finds them more interesting than soap operas and quiz shows. She also likes watching the weather forecast to plan her outdoor activities. Sarah believes that wildlife documentaries are the best because they are very educational.

True/False Questions:

1. Sarah always starts her day by doing household chores.
