

Read the sections of the story of Titanic and put them in order.

- a. The ship broke into two pieces and began to sink. At first she sank slowly, but then she went down very quickly.
- b. Finally, the people in the lifeboats were rescued by another ship, the Carpathia. It took her more than four hours to pick everybody up.
- c. The Titanic set sail from Southampton in England on 10 April 1912. It was her first voyage.
- d. Although some people escaped in lifeboats, others jumped into the sea. However, the water was freezing cold and most of them drowned.
- e. For the first two days, she sailed across the Atlantic Ocean on her way to New York. The weather was calm and peaceful.
- f. Suddenly, late at night on 14 April 1912, the Titanic hit a huge iceberg. It was 30 metres taller than the deck of the Titanic and the most of it was under water.
