- 20. pint = _____
- 21. gal = _____
- 22. fluid ounce = _____
- 23. mcg = _____
- 24. cc = _____
- 25. bu. = _____

IV. Convert the given below from °C to °F and vice versa. Show your solution on the given space below and box your final answer.

26-28.) 32°C = _____ °F	29-31.) 281°C = _____ °F	32-34.) 155 °C = _____ °F
35-37.) 1223 °F = _____ °C	38-40.) 214 °F = _____ °C	

V. Illustrate a sample of the following types of hazards inside each box below. In not less than three sentences, explain how you are going to prevent the following hazards from happening.

RUBRICS	3	2	1
Creativity	The student shows exceptional creativity in illustrating the given type of hazard.	The student meets the expected level of creativity in illustrating the given type of hazard.	The student did not meet the expected level of creativity in illustrating the given type of hazard.
Description	The student was able to explain how to prevent the hazard in 3 sentences or more.	The student was able to explain how to prevent the hazard in 2 sentences.	The student was able to explain how to prevent the hazard in 1 sentence.

Biological Hazard
Ergonomic Hazard

40-46. _____

47-52. _____

VI. Short Answer.

A. In not less than 2 sentences, answer the following questions. (10 points)

53-54. In your opinion, why is it crucial to avoid overcrowding the oven when baking multiple items simultaneously?

55-56. Consider the significance of measuring ingredients accurately in baking. What is the importance of precise measurement of ingredients?

57-58. Proper ventilation in the kitchen is necessary especially while baking. Why is it necessary to have good airflow in the kitchen when you're using things like ovens and mixers?

59-60. How important do you think is it to check and make sure that all electrical kitchen tools, like mixers and blenders are in good shape before using them?

B. Answer the following questions in not less than 5 sentences. (10 points)

61. – 65. You're excited to bake a cupcake. The recipe instructs you to mix the ingredients in a bowl to make an icing. Which kitchen tool/s would you grab for this task? Describe the steps you will take to make sure all the ingredients are well mixed.

66. – 70. Imagine you just baked a batch of your favorite chocolate cupcakes at home. Your friend is coming over to taste them. You noticed that you only have limited time to clean since your friend is already near your house. What will you do and how will you make sure that your kitchen is still presentable?

God is good! 😊
