

Circulatory system

The circulatory system nutrients and oxygen around the body through the blood vessels.

The circulatory system includes:
.....

The **blood vessels** carry blood cells around the body.

There are **3 types**:

Heart: It is a muscular organ that
..... around the body in the blood
vessels

Vessels {
..... : They carry the blood away from
the heart to the rest of the body
..... : They are smaller blood
vessels which connect arteries and veins
..... : They carry the blood back to the
heart
