Matching Fractions

Draw lines to connect the word, the number, and the picture form of each fraction.

The first one has been done for you.

satu per tiga 

$$\frac{3}{5}$$

dua per lima 

$$\frac{2}{3}$$

empat per lima 

$$\frac{1}{3}$$

dua per tiga 

$$\frac{4}{5}$$

satu per dua 

$$\frac{2}{5}$$

tiga per lima 

$$\frac{1}{2}$$

Pecahan Semangka

Pastikan setiap jawaban memiliki instruksi perhitungan yang tepat. Pastikan kembali hasil jawaban untuk memastikan keakuratannya.

1

Ada 10 potong semangka. Aaron menghabiskan empat potong semangka, tetapi Marceline menghabiskan 3 potong. Secara keseluruhan, berapa banyak potongan semangka yang telah dihabiskan? Berapa banyak semangka yang tersisa?

2

Ibu memotong buah semangka. Setiap semangka dipotong menjadi delapan bagian. Donna memakan tiga potong semangka, berapa banyak semangka yang tersisa?

3

Helena telah menghabiskan dua potong dari masing-masing tiga semangka yang dibelinya jika masing-masing dibagi menjadi delapan bagian. Berapa banyak potongan semangka yang masih ada setelah Helena menghabiskan semuanya?
