

Past Passive

Jim: I was reading about ancient civilizations yesterday. Did you know the pyramids in Egypt (1)..... **were built** / **was built** thousands of years ago?

Rose: Yes, it's amazing! If I lived at that time, I (2)..... **will** / **would** love to see them being built.

Jim: It's incredible to think about. So much of their knowledge was passed down through generations, even though many of their achievements (3)..... **was forgotten** / **were forgotten** for a while.

Rose: That's true. If more of that knowledge (4)..... **were preserved** / **was preserved**, we might learned even.

Jim: Exactly! Even the ancient libraries if they were not destroyed, we could understand their science and culture much better.

Rose: If I could travel back in time, I definitely (5) **would** / **will** visit those civilizations and see how everything was built.
