LONDON'S RED PHONE BOXES TURN GREEN

Before nearly everyone had a mobile phone to ¹ _____, there were more than 70,000 red phone boxes throughout Britain. However, their numbers have ² _____ in recent years. Most of them have ³ _____ and there are now only about 11,000. Many of those are ⁴ _____ for their original purpose, as the phone company has ⁵ _____ the phones they contained. With permission, people have been using these small, empty structures in creative ways, including making some into tiny free libraries and installing emergency medical equipment in others. Now, some empty phone boxes have been painted green to symbolise their new function: a free, ⁶ _____ phone-charging station with solar-powered chargers to fit different phones and tablets. Anyone who wants to can stop and charge their device ⁷ _____ to their next destination.⁸ _____, these so-called "solarboxes" are only in London, but if they prove to be popular, people elsewhere in Britain may soon ⁹ _____ them, too.
