Measuring Equipment

measuring scales *multimeter* *sound level meter* *measuring cylinder*
measuring tape *thermometer* *measuring wheel* *stopwatch* *forcemeter*
amps (A) *degrees Celsius (°C)* *meters (m)*
seconds (sec), minutes (min) *grams (g), kilograms (kg)* *newtons (N)*
centimetres cubed (cm^3), millilitres (ml) *decibels (dB)* *millimetres (mm), centimetres (cm)*
time *temperature* *distance* *length* *force, weight* *mass*
volume of sound *volume of liquid* *electrical current*

Name of equipment: *balance* What it measures: *mass* Units it uses: *grams (g), kilograms (kg)*
