WEARABLE TECH!

So you love technology? Well here's something you won't want to miss! Our latest watch is really cutting **(a)** with a high-**(b)** screen. Unlike our old models, it isn't **(c)** at all. In fact, you will hardly notice you are wearing it because it is so **(d)** – just 15 g! You can choose from two finishes, either black or a shiny **(e)** silver.

It's perfect for sportsmen and sportswomen alike. The face is **(f)** so don't worry if the watch comes off when you are running. If you like swimming, you don't need to take the watch off as it's **(g)** to a depth of five metres!
