Read the following passage and choose the correct answer.

The Role of Technology in Education

Technology has revolutionized education in many ways. Students now have access to an abundance of information through the internet, making it easier to research topics and learn at their own pace. Online platforms provide interactive tools such as videos, quizzes, and simulations, which enhance understanding. Moreover, virtual classrooms allow learners from different parts of the world to connect and collaborate. However, reliance on technology has also raised concerns. Excessive screen time may affect students' health, and the digital divide means not all learners have equal access to these resources. Striking a balance between traditional and modern methods is essential for effective learning.

1. What is the main idea of the passage?

A. Students prefer online platforms over traditional classrooms.

B. The digital divide is the primary issue in education today.

C. Technology offers many benefits in education but also presents challenges.

D. Technology has completely replaced traditional methods of education.

2. According to the passage, how does technology benefit students?

A. It eliminates the need for teachers in classrooms.

B. It provides access to information and interactive learning tools.

C. It makes education completely effortless.

D. It forces students to spend more time studying.

3. What is one of the interactive tools mentioned in the passage?

A. Simulations

B. Chalkboards

C. Textbooks

D. Paper worksheets

4. How do virtual classrooms help students?

A. They replace the need for traditional education completely.

B. They prevent students from interacting with teachers.

C. They provide an opportunity to connect and collaborate globally.

D. They allow students to avoid doing assignments.

5. What concern does the passage mention about excessive screen time?

A. It reduces the cost of education.

B. It makes students more intelligent.

C. It improves students' social skills.

D. It can negatively impact students' health.

6. What does the term "digital divide" refer to?

A. The division between younger and older teachers.

B. The gap between students who have access to technology and those who do not.

C. The separation between online and offline learning materials.

D. The difference in students' ability to use computers effectively.

7. Why is it important to balance traditional and modern teaching methods?

A. To completely replace online education with face-to-face teaching.

B. Because traditional methods are always more effective.

C. Because technology is too expensive for most schools.

D. To ensure students get the benefits of both while minimizing drawbacks.

8. What role does the internet play in modern education, according to the passage?

A. It helps students find information easily.

B. It is only useful for entertainment.

C. It makes teachers unnecessary.

D. It forces students to study harder.

9. Which of the following is not mentioned as a benefit of technology in education?

A. Better handwriting skills

B. Interactive learning tools

C. Global collaboration

D. Instant access to information

10. What is the author's perspective on technology in education?

A. Only online learning should be promoted.

B. Technology is beneficial but has some challenges.

C. Technology is harmful and should not be used in schools.

D. Traditional methods should be abandoned.
