

Yes, it is! No, it isn't!

Americans like to talk fast, so they make *contractions*.

Listen and repeat!

*contract* = make smaller

*contraction* = making 2 longer words into one short word

is + not = isn't

you + are = you're

To make the words short, we *remove* (take out) *letters*.

couldn't  
could + not

you'll  
you + will

This is an *apostrophe*. It shows *where* we removed letters.

Listen and repeat.

he + is = he's    do + not = don't    I + have = I've
