A maze puzzle with five starting points at the top and five ending points at the bottom. The starting points are: a cat, a hair dryer, carrots, a hedgehog, and a prince. The ending points are: an empty box, an empty box, an empty box, an empty box, and a box with a question mark. Dashed lines represent the paths through the maze.

A maze puzzle with five starting points at the top and five ending points at the bottom. The starting points are: a broom, a frog, a tractor, a pink house, and a prince. The ending points are: an empty box, an empty box, an empty box, an empty box, and a box with a question mark. Dashed lines represent the paths through the maze.
