

What's your hobby?

Chloë

My love of windsurfing started when I was a child. It's quite an expensive hobby for most people, but I'm lucky because my uncle owns a windsurfing school. I can go windsurfing for free with my cousins. They've won prizes for windsurfing in different countries. I'm getting better at windsurfing now. Next year, I'd like to buy my own board. I need to save a lot of money first though!

Ian

I love art. My grandfather was an artist so maybe it's in the family! Unfortunately, I never met him, but I've seen his picture. My love for art started at college. I don't go to college now, but I go to an art class with my friend. I won't win any prizes for my art – I'm not that good, but I enjoy it. I also love art shops. I probably buy too much – I usually buy something every week!

Ben

My hobby is music. I'm really lucky because my friend's a drum teacher. She's taught me a lot. I now play the drums in a group. I only joined the group last year, but we've already played five concerts – two were at a local college. We entered a music competition last month and won £500! I've always loved music and my dream is to play in different cities around the world.
