Summer blockbusters

In some countries, the advent of summer means long sunny days, picnics in the park, relaxing cycle rides in the country, volleyball on the beach, and eating (0) enough ice-cream to keep the local parlour **22**.

business. This is all very admirable, but not necessarily something that everyone recognizes – especially if you are a film fan. Those who are **23** me, in other words who love the cinema, look forward to the coming of summer for a very different reason.

Summer brings the latest batch of blockbusters, at **24** that's what the various film studios hope 25 be. Summer films are different from all the others. They seem more exciting, more adventurous, and, dare I say, more expendable. In the summer, film fans are happy to part 26 their cash for a couple of hours of frothy fun. There's no need for leading actors to deliver long speeches or to provoke our thoughts after leaving the cinema. All they need to do is entertain us 27 that we leave the cinema with thoughts of adventure, no matter it is on the high seas or the in the deepest jungle, and we all feel we can be superheroes. Well, certainly until the next ice-cream comes along.
