

## UNIT 2 - READING TEST 4

**A.- Read the text. Choose the best answer to complete the sentence about the text.**

Brad and Erica like to go shopping on the weekends. They don't like the mall, though. It is too crowded. They also don't like to shop at department stores because they are too big and the salespeople aren't friendly. They like to shop at flea markets. Flea markets are usually outside, so Brad and Erica get fresh air as they walk around and enjoy the nice weather. Also, prices are usually reasonable at flea markets.

Today, Erica wants to buy a beautiful bracelet from a man at the market, but she doesn't have enough money.

"Do you take credit cards?" she asks.

"No. We only take cash," the man answers.

Erica decides not to buy the bracelet because she doesn't have enough cash. Brad says that they can return the next weekend to buy the bracelet.

"Well, if the man doesn't sell it by then, of course," Erica says.

They walk around for a few more minutes looking at clothes and used books. Brad buys two rare books for Erica so that she is not so sad about the bracelet. But she isn't, anyway. She thinks that looking at the interesting things sold in the flea market is sometimes more fun than buying them.

## **Learning for fun**

Meet three women who enjoy taking classes in their free time.

### **Paula**

I work full time as a nurse, and don't have much time for hobbies, but I've been interested in photography since I was a child. On my last holiday to India, I took lots of pictures, and everyone I showed them to said they were great. So I decided to do a course. At first, I was afraid I might not be good enough. After all, it was my first time as a student for ten years! But I loved it from the very first lesson.

### **Sally**

When I was still at school, I started learning the violin. It was fun and I was quite good at it, but I didn't do it for long, because I had so many other hobbies. Then last year, I was having a hard time in my job, and my husband bought me a violin as a present. I started learning with a teacher again. All three of my children are learning to play instruments too, so now we can practise with each other!

### **Kim**

Last year I moved to a new city because of my job. I didn't have anything to do in the evenings, so one of my colleagues said I should try a class at the local college. I immediately thought of cooking. My mum was a fantastic cook, and when I was a child I loved watching her in the kitchen, but I never learned how to cook myself. The other students on the course are around my age, and sometimes we go to restaurants together, or even the cinema.
