throw / rubbish / on / floor
be / there / thirty minutes / earlier
buy / ticket

3. **ON A PLANE**

turn off / mobile
run
watch / film

E. Read and complete the sentences.

TREES ARE OUR FRIENDS

Trees are very important to humans and animals. They give us oxygen and they help clean the air from pollution. They offer us wood, fruit and many more things. Also, many animals make their homes in and on trees and also get their food from them.

Most trees are 4-6 metres tall and some kinds can reach 60 metres! Trees can live for hundreds or even thousands of years, like the Giant Sequoias in California.

Unfortunately, trees are disappearing. There are many forest fires every year and people also cut down trees to make paper and build houses and roads. Did you know that every two seconds a forest as big as a stadium disappears? That means that all the animals that live there die too.

We must help protect trees. One thing we can do is recycle. For every one thousand kilos of paper we recycle, we save seventeen trees. Another thing we can do is plant trees. We must all do something now!

1. Trees offer many things to _____ and _____.
2. Some trees can be _____ metres tall.
3. _____ are one of the oldest kinds of trees on the planet.
4. Many _____ die when a forest disappears.
5. You can save _____ by recycling one thousand kilos of paper.
6. To protect forests, people can _____ and _____.
