Project planning

Activity 4

Match the programming stages with the descriptions below. This will help you plan what you need to do to finish the project.

Stages		Description
Programming		This is usually a description of the requirements. Your program must meet all requirements to be successful.
Testing		Here, you will think about what you did. This will help you improve in the future.
Self-reflection		This is about deciding what you need to do and when. You will also create an algorithm for your program
Project brief		Here, you will create the program using development software. This step will let you show all the things you learned this term.
Planning		You do this part to check that the program meets the requirements.
