Nowadays, the police have been applying the new regulation concerning the use of seat belts. In European countries, this regulation has been applied for a long time. However, this new regulation has become controversial and is an interesting topic to discuss. Here are some arguments.

The use of seat belts has been proven to reduce the risk of injury or death in an accident. Seat belt has become a standard component in cars. The research shows that most car accident will cause an injury to the head. Frequently drivers or the passengers driving without seat belts die because of this. By wearing the seatbelts, the injury will not happen since belts restrain our body on the car seat when the accident happens.

Unfortunately, many cars especially the old ones, don't have the seat belts. This is because the traffic conditions in the past were unlike the recent traffic conditions. The designer of old cars did not consider seat belts as an important part. Besides, the driver wearing the seat belts will think that they are completely safe so they may drive carelessly. They are safe, indeed, but how safety of other?

The seat belt is only one of the ways to reduce the risk of car accidents. It doesn't mean that we are completely safe, our safety depends on ourselves.

4. What is the main idea of paragraph 3?
 - A. Old cars do not use seat belts
 - B. The old cars have seat belts for their safety
 - C. The driver wear seat belts may drive carefully
 - D. The traffic condition in the past were similar to the recent
 - E. The old cars designer considered aseat belt as an important part
5. What is the function of seat belt?
 - A. The reduce the traffic condition
 - B. To become a standard component
 - C. To reduce the risk of injury or death in an accident
 - D. To prevent the drivers driving cars carefully
 - E. To increase the risk of injury in car accident
6. Who consider a seat belt as an important part?
 - A. Police B. People C. Drivers D. Passengers E. Old cars designer
7. “ ... that they are completely safe” (paragraph 3)
What does the word ‘they’ refer to?
 - A. Cars B. seat belts C. Drivers D. Designers E. others

We are announcing today that we are bringing the Milestone and Ever Green brands even closer together. Effective as of December 5th 2023, our official name will be: GREEN MILES WEST

The substitution of the “West” in our name, replacing “Cianjur”, is the result of an agreement we reached with Cianjur Gardening Association, following a protest over the original use of “Cianjur” in our name.

We hope this does not create any confusion among our loyal consumers. While this represents a change form our initial name introduction, it does not change the quality of product we offer to our consumers.

8. Who issues the announcement?
 - A. Green Miles West Company
 - B. Green Miles west costumers
 - C. Cianjur Gardening Association
 - D. The partnership of Green Miles West
 - E. The loyar partner of Milestone and ever Green
9. The word ‘subtitution’ has closest in meaning to...
 - A. Merger B. Insertion C. Development D. Replacement E. Improvement

The text for the question 10 to 11

Kediri is a name of a town. It is situated in a valley between the Kelud and Willis mountains and inhabited by about 1.3 million people. In the centre of the town there is a large hill which is called the Dathok Mountain. Because of the topography of the region, Kediri is a chilly town by the locals. There is a big river called Brantas cutting off the centre of the town.

Beside the temples, Kediri is also famous for its product like cigarettes and a special kind of tofu or bean curd. This highly nutrition food is delicacy of Kediri and has a distinctive taste. Taylor, Inc.
694 KIMA
Makassar

Dear Human Resources Director,

I just read an article in the TRIBUN MAKASSAR about Taylor's new computer center just north of Durham. I would like to apply for a position as an entry-level programmer at the center.

I understand that Taylor produces both in-house and customer documentation. I am a fresh graduate of DeVry Institute of Technology in Atlanta with an Associate's Degree in Computer Science. In addition to having taken a broad range of courses, I served as a computer consultant at the college's computer center where I helped train computer users on new systems.

I will be happy to meet you at your convenience and discuss how my education and experience match your needs. You can reach me at my home address, at (919) 233-1552, or at rock@devry.alumni.edu

Sincerely,

Baruna Syahrul Ramadhan

EARTHQUAKES

Earthquakes- being among the most deadly natural hazards – strike without any prior warning, leaving catastrophe in their wake with terrible loss of human lives as well as economic loss.

Technically, an earthquake (also known as tremor, quake or temblor) is a kind of vibration. This vibration occurs as a result of powerful movement of rocks in the earth's crust. These powerful movements trigger a rapid release of energy that creates seismic waves that travel through the earth. Earthquakes are usually brief, but may repeat over a long period of time.

Earthquake are classified as large and small. Large earthquakes usuall with slightt tremors but rapidly take form of violent shocks. The vibrations from a large earthquake last for a few days known as aftershocks. Small earthquakes are usually slight tremors and do not cause much damage. Large earthquakes are known to take down buildings and cause death and injury. According to some statistics, there may be an average of 500,000 earthquakes every year but only about 100,000 can be felt and about 100 or so can cause damage each year.
