

SUMA DE FRACCIONES HOMOGÉNEAS

Para sumar fracciones de igual denominador, se suman los numeradores y se escribe el mismo denominador

$$\begin{array}{|c|c|c|} \hline \text{■} & \text{■} & \text{■} \\ \hline & & \\ \hline \end{array} + \begin{array}{|c|c|c|} \hline & \text{■} & \\ \hline \text{■} & & \\ \hline \end{array} = \begin{array}{|c|c|c|} \hline & & \\ \hline & & \\ \hline \end{array}$$

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

$$\begin{array}{|c|c|c|c|} \hline \text{■} & \text{■} & \text{■} & \text{■} \\ \hline & & & \\ \hline \end{array} + \begin{array}{|c|c|c|c|} \hline \text{■} & \text{■} & & \\ \hline & & & \\ \hline \end{array} = \begin{array}{|c|c|c|c|} \hline & & & \\ \hline & & & \\ \hline \end{array}$$

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

$$\begin{array}{|c|c|c|c|} \hline \text{■} & \text{■} & & \text{■} \\ \hline & & & \\ \hline \end{array} + \begin{array}{|c|c|c|c|} \hline & \text{■} & & \\ \hline & & & \\ \hline \end{array} = \begin{array}{|c|c|c|c|} \hline & & & \\ \hline & & & \\ \hline \end{array}$$

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

$$\begin{array}{|c|c|} \hline \text{■} & \text{■} \\ \hline \text{■} & \\ \hline \end{array} + \begin{array}{|c|c|} \hline \text{■} & \\ \hline \text{■} & \\ \hline \end{array} = \begin{array}{|c|c|} \hline & \\ \hline & \\ \hline \end{array}$$

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

$$\begin{array}{|c|c|} \hline \text{■} & \\ \hline & \text{■} \\ \hline \end{array} + \begin{array}{|c|c|} \hline & \text{■} \\ \hline & \\ \hline \end{array} = \begin{array}{|c|c|} \hline & \\ \hline & \\ \hline \end{array}$$

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$
