

RESOLVER LA SIGUIENTE MATRIZ 3X3

$$A = \begin{Bmatrix} 1 & 2 & 3 \\ 4 & 5 & 6 \\ 7 & 8 & 9 \end{Bmatrix}$$

$$A| = \left(\begin{array}{|c|c|c|c|c|} \hline \square & \square & \square & \square & \square \\ \hline \end{array} \right)$$

$$\square \left(\begin{array}{|c|c|c|c|c|} \hline \square & \square & \square & \square & \square \\ \hline \end{array} \right)$$

$$A| = \left(\begin{array}{|c|} \hline \square \\ \hline \end{array} \right) \square \left(\begin{array}{|c|} \hline \square \\ \hline \end{array} \right)$$

$$A| = \square$$
