

Exciting Jobs Around the World

People do many different jobs around the world. Some jobs are creative, some are scientific, and others involve working with people. Let's look at some interesting jobs!

A **game designer** creates fun and exciting video games. They think of new ideas, design characters, and make sure the game is enjoyable to play.

A **musician** plays musical instruments or sings. Some musicians perform in concerts, while others write songs for movies or television.

A **journalist** writes news stories. They travel to different places, interview people, and report on important events.

A **scientist** studies the world and discovers new things. Scientists work in laboratories and do experiments to learn more about nature, space, and medicine.

An **actor** performs in plays, movies, or television shows. They play different roles and bring stories to life.

An **artist** creates beautiful paintings, drawings, or sculptures. Some artists paint pictures, while others make art using computers.

These jobs are all exciting and important. What job would you like to have in the future?
