The History of Pilgrims

Thanksgiving Day, celebrated in the United States on the fourth Thursday of November, dates back to the early 17th century when a group of people, known as Separatists, looked for a place where they could practice their religion freely. 102 people left England in 1620, aboard a ship named the Mayflower, setting off a voyage across the Atlantic Ocean to a place which they called New England.

When they arrived in America, the Pilgrims faced challenges as they settled in unfamiliar environment during the winter months. Many faced hardship and loss, as the cold climate and lack of food caused sickness among the settlers.

Fortunately, local Native Americans taught the Pilgrims farming techniques as well as how to catch fish and gather edible plants, which ultimately led to their survival in this new world.

As the spring arrived, the Pilgrims celebrated their first successful harvest with a feast in 1621, which is now known as the first Thanksgiving. This occasion marked their gratitude for food and the spirit of cooperation between the Pilgrims and the Native Americans. Today, the legacy of that first Thanksgiving still brings families and friends together each year to share meals and express thankfulness.
