

Online customers' reviews

I- Read all these online reviews and match them with the following situations. Write the number inside the circle.

1. Your mom wants to book the hotel rooms for the next holidays, but first she reads some online reviews to decide.
2. You have just bought the last model of a Samsung Smart phone and you're very, very satisfied with all its functions. Which review are you going to write?
3. You used the online client's service to solve a problem with your phone and internet connection. After solving the problem there was a request to review their service. You just had to choose one of the four options given.
4. You have been helping your mother with some gardening and now your hands are showing some damage. You want to buy a good cream, but you aren't sure.
5. Debbie has had some problems in her life. However, she decided to fight for her aims and succeed in life. How is she going to do that? She is looking for some help on the Net.
6. George moved to his new house. Now he is looking for some information about good TV sets to decide which one to buy.
7. Winter is coming and your mother wants to buy some new blankets. She would like something good but not expensive. She read some reviews online and got confused.
8. You bought a new fridge online and decided to write a good review about this experience.

II- Now write a customer review about something you have bought recently.

Love it! I've used Obagi in the past and was talked into using some other stuff but came back to Obagi because it works. I was glad to read that this seller only uses authentic, not counterfeit products. Obagi is the best product for your skin hands!

If you have a goal in life you want to achieve, this book will help.

I promise this book will change your life for the better, but this book comes with directions … as you read "Think and grow rich" it will make you think. ***Dan***

This is the best thing I've ever bought

I love this! I bought one for my kids and saved money. It's the perfect gift and easy to store and clean. I would buy this any day. Also, I bought this for my youngest girl and she loves it. I told other moms and they LOVE it. It is AMAZING. ***Jill***

I was given this as a Christmas present. It isn't even good quality fleece… good thing it wasn't expensive. I'll probably donate it to Good Will so someone might actually use it. ***Susan***

The hotel isn't the most modern state of the art kind of place but the friendliness and helpfulness of the staff makes a whole lot of difference there. They took care of my needs well before my arrival. The room is comfortable and clean. I could hear a bit of noise from my neighbour though.

Stayed October 2011, traveled solo

Functional product looks just as good as high-end brands at half the cost. Was very easy to buy too. Purchased online and had it delivered/installed within 2 days.

I watched last week's *The Killing* on my friend's new Samsung TV, the clarity and picture was freakishly good, looked almost too real.
