

# Ecuaciones Lineales

$$x + 3 = 7$$

$$x = 7 - 3$$

$$x = 4$$

$$x + 2 = 10$$

$$\square = \square \square \square$$

$$\square = \square$$

$$x + 1 = 24$$

$$\square = \square \square \square$$

$$\square = \square$$

$$x + 0 = 18$$

$$\square = \square \square \square$$

$$\square = \square$$

$$x + 5 = 19$$

$$\square = \square \square \square$$

$$\square = \square$$

$$x + 13 = 31$$

$$\square = \square \square \square$$

$$\square = \square$$

$$x - 3 = 8$$

$$x = 8 + 3$$

$$x = 11$$

$$x - 5 = 10$$

$$\square = \square \square \square$$

$$\square = \square$$

$$x - 4 = 1$$

$$\square = \square \square \square$$

$$\square = \square$$

$$x - 9 = 21$$

$$\square = \square \square \square$$

$$\square = \square$$

$$x - 13 = 31$$

$$\square = \square \square \square$$

$$\square = \square$$

$$x - 4 = 72$$

$$\square = \square \square \square$$

$$\square = \square$$

*¡Excelente trabajo!*
