UNIT 4: FOR A BETTER COMMUNITY

Reading passage

Making the world a better place starts with small actions. Many people help their communities by helping at a food bank, where they give food to those in need. Others support local causes by selling handmade items and donating the money to social projects.

Another way to give back is by raising money for charity. People organize events like bake sales or fun runs to collect donations for important causes. Some volunteers spend their time tutoring poor children, helping them improve their reading and math skills. Education is a key to a better future, and these efforts make a big difference.

Delivering food and clothes to the homeless is another meaningful way to help. Many people do this to support those who have no shelter or resources. Through these acts of kindness, volunteers develop a strong sense of purpose, knowing they are making their community a better place.

No matter how small the effort, every good deed counts. By working together, people can create a caring and supportive society where everyone has a chance to live a better life.
