Zone Indicator for MetaTrader 4 Download - Free - [Trading Finder]

The **Zone Indicator** is one of the powerful tools in **MetaTrader 4** that helps traders identify critical **Support** and **Resistance** levels based on past **Price Action** behavior. The **MT4 Lenel indicator** marks **resistance zones** with red boxes and **support zones** with green boxes.

These levels can be useful in identifying key reversal points for optimal **Entry-Exit** positions and setting Take-Profit and Stop-Loss levels. This indicator is particularly useful in all markets, especially those with high volatility, where price movements are fast and unpredictable.

Zone Indicator Table

Category	Price Action - Support & Resistance - Levels and Surfaces
Platform	MetaTrader 4
Skill Level	Beginner
Indicator Type	Continuation - Reversal - Breakout
Timeframe	Multi-Time Frame
Trading Style	All Styles
Trading Market	All Markets

Buy Conditions with the Indicator (Support Level)

The image below shows the **EUR/NZD** currency pair chart in the 1-hour timeframe. After a downward trend, on **August 1st**, the price reached the **green box (SH1)** drawn by the indicator at 1.8085. This zone acted as support, and after hitting it, the price bounced back up.

Traders could look for reversal confirmations, such as **candlestick** or **classic reversal patterns**, to enter **buy positions** in the marked area.
