

Name : _____ Grade : _____

Subject: _____ Teacher : _____

Mid-Term EXAM – EVEM SEMESTER
Functional Literacy Exam
ACADEMIC YEAR 2024/2025
March, 2024

Read the following texts carefully and answer the questions.

Text 1: Bus Schedule
City Express Bus Schedule

Stop	Morning	Afternoon	Evening
Central Station	7:00 AM	1:00 PM	7:00 PM
Oak Street	7:15 AM	1:15 PM	7:15 PM
Maple Avenue	7:30 AM	1:30 PM	7:30 PM
Pine Road	7:45 AM	1:45 PM	7:45 PM
Riverbank	8:00 AM	2:00 PM	8:00 PM

Questions:

1. What time does the last bus leave Riverbank? _____
2. If you need to be at Oak Street by 1:15 PM, what time should you take the bus from Central Station? _____
3. How many times a day does the bus stop at Maple Avenue? _____

Text 2: Advertisement

Questions:

4. When does the sale start? _____
5. What is the special offer for accessories? _____
6. What time does the store close? _____

Text 3: Reading Menu

BEEF MENU

- Prime Beef Boneless Rib \$12.0
- Prime Beef Rib \$12.0
- Marinated Prime Beef Rib \$12.0
- Marinated Prime Beef Rib Finger \$12.0
- Beef Tongue \$12.0
- Thin Sliced Brisket \$12.0

PORK MENU

- Smoked Pork Belly \$12.0
- Pork Belly Slice \$12.0
- Spicy Pork Belly \$12.0
- Jowls Skinless \$12.0

OTHER MENU

- Kimchi \$12.0
- Bibimbap \$12.0
- Dimsum \$12.0
- Bulgogi \$12.0
- Fried Shrimp \$12.0
- Meat Jun \$12.0

7. How much does a serving of Prime Beef Boneless Rib cost? _____
8. What are the four types of pork dishes available on the menu?

9. If a customer orders Thin Sliced Brisket and Bulgogi, how much will they need to pay in total? _____
10. Which dish is described as "Smoked" under the Pork Menu? _____
11. Name three dishes listed under the "Other Menu" category.

12. What social media handle is used for this restaurant?

13. Is the food on this menu halal? Why or why not?

14. Which ingredients or types of meat in this menu might not be permissible for Muslims to consume according to Islamic dietary laws?
-

Text 3: Reading Graph

15. Which item is more expensive, the Cheeseburger or the Caesar Salad? _____
16. Is Coffee cheaper than Orange Juice? _____
17. Which costs less, Toast with Jam or Scrambled Eggs? _____
18. Does Spaghetti Bolognese cost more than a Grilled Chicken Sandwich? _____
19. How does the price of a Vegetable Stir-fry compare to a Grilled Salmon? _____
20. What is the price difference between the most expensive and least expensive items on the menu? _____
21. What makes the Lunch Menu different from the Breakfast Menu in terms of price? _____
22. Which two items on the menu have the same price? _____
23. What is the cheapest item on the menu? _____

24. Which item is the most expensive? _____
25. What is the most expensive drink available? _____
26. Which breakfast item is the least expensive? _____

Text 4 Reading Passage:

The Great Barrier Reef

The Great Barrier Reef, located off the coast of Australia, is the largest coral reef system in the world. It stretches over 2,300 kilometers and is home to thousands of marine species, including fish, turtles, and sharks. The reef is made up of tiny organisms called coral polyps, which build limestone structures over time. These corals provide shelter and food for many sea creatures, making the reef one of the most diverse ecosystems on Earth.

However, the Great Barrier Reef faces serious threats. Climate change has caused ocean temperatures to rise, leading to a phenomenon known as coral bleaching. When corals are stressed by high temperatures, they lose their vibrant colors and become weak. Pollution from human activities, such as plastic waste and chemicals, also harms the reef. Scientists and conservationists are working hard to protect this natural wonder by creating marine protected areas and encouraging eco-friendly tourism.

Questions:

27. What makes the Great Barrier Reef an important ecosystem?

28. How do coral polyps contribute to the formation of the reef?

29. Explain the cause and effect of coral bleaching. What are the consequences for marine life?

30. Compare the impact of climate change and pollution on the reef. Which do you think is more damaging, and why?

31. What are some possible solutions to protect the Great Barrier Reef? Provide at least two ideas.

32. What do you think would happen if the Great Barrier Reef were to disappear? How would it affect the ocean and the people who rely on it?

33. Why do you think the author wrote this passage? What is the main message they want readers to understand?

34. How do you think human activities, such as tourism and fishing, impact the Great Barrier Reef? What can be done to reduce these effects?

35. If you were a scientist studying the Great Barrier Reef, what kind of research would you conduct to help protect it? Explain your reasoning.
