4 Choose the correct answers to complete the text.

Greetings from Telosa! This eco-smart city in the USA is over 600 square kilometres, has got 50,000 residents and uses only clean energy. You ¹ **mustn't** / **don't have to** walk far to get to a beautiful open space. In addition, its residents ² **shouldn't** / **don't need to** travel more than 15 minutes to get to schools, workplaces and shops. In fact, most residents ³ **can** / **need to** walk or cycle everywhere. But obviously, everyone ⁴ **can't** / **must** do that. There are both self-driving electric cars and public transport. Anyone ⁵ **can** / **should** use these.

Telosa sounds wonderful. But you ^{6.} **shouldn't** / **couldn't** make plans to visit because it doesn't exist yet. It's the idea of billionaire Marc Lore, and his dream is to create a model city for a new way of living in the desert in the USA. According to Lore, the first residents will have the chance to move in by the early 2030s. People interested in living there ^{7.} **could** / **should** fill in an application on Telosa's website.
