Dreaming Big

Lore, Emiliano, Franco, Robert, and Danny are sitting in their English class, listening carefully to Miss Fonseca. She believes in them more than anyone else. "If you work hard and achieve your goals, you can travel the world and have a bright future," she explains with a smile. Lore feels inspired. She dreams of becoming a flight attendant and visiting every continent. Emiliano wants to become a famous chef. Franco hopes to be a businessman, Robert wants to be a pilot, and Danny plans to be an artist.

Miss Fonseca begins the lesson by writing new vocabulary on the board. "Who can answer this question?" she asks. Franco raises his hand and answers confidently. "Good job, Franco!" Miss Fonseca says. Danny is drawing a picture of an airplane on his notebook. "Danny, please focus," Miss Fonseca calls him out gently. Danny closes his notebook and tries to pay attention.

After class, the kids decide to meet at Lore's house to study together. Lore bakes cookies while Emiliano is chopping some vegetables for a snack. "We need to accept that learning English is hard, but we can't give up," Emiliano says. "Yes, but we can't let challenges beat us," Lore adds. They all agree and promise to support each other.

One day, an opportunity arises to participate in an international English contest. Miss Fonseca tells them about it. "If you win, you will have the chance to travel to London!" she says excitedly. "We have to give our best!" Robert says. They begin to prepare every day, checking their grammar and practicing pronunciation. Danny draws a big map of the world to motivate them.

As the contest day arrives, the kids feel nervous but excited. They come to the venue together, holding hands. "We can do this!" Lore says confidently. During the test, they deal with difficult questions, but they answer them with determination. Emiliano feels his hands shaking, but he clings to his belief that they can succeed.

Finally, the results are broadcast live. Their team wins first place! They burst into tears of joy and hug each other. "We did it!" Robert shouts. Miss Fonseca comes running toward them, smiling proudly. "I always believed in you," she says. The kids feel proud and thankful for their hard work.

To celebrate, Emiliano cooks a special meal for everyone. Lore helps him grate cheese while Franco is chopping vegetables. "This feels like a dream," Lore says. "No, it's our reality," Franco answers. Danny draws a picture of them standing in front of Big Ben, imagining their future trip to London.

Miss Fonseca calls them to remind them of their next goal: to speak English fluently. "You've come so far, but there's still more to achieve," she says. The kids promise to keep working hard. "We can't forsake our dreams now," Danny says.

Months later, they are packing their bags for London. Franco buys a new suit, and Robert carries a camera. Emiliano is baking snacks for the trip. Lore feels emotional, thinking about how far they've come. They know that this is just the beginning of their success story.

On the flight to London, they sit together, excited about the future. "We made it because we never gave up," Lore says. Miss Fonseca smiles proudly. "And this is just the beginning," she says.
