

Stochastic Momentum indicator for MT4 Download - Free - [TradingFinder]

TradingView [MetaTrader4](#) MetaTrader5

The **Stochastic Momentum Oscillator** is an improved version, specifically designed and developed for the MetaTrader 4 platform. This **MetaTrader4 Oscillator** enhances the precision in identifying trading opportunities by using **moving averages** and an advanced computational algorithm to recognize market trends better.

In this indicator, the **signal** line is displayed in **orange** and the **oscillator** line in **blue**, which traders can use to predict trading opportunities and identify market trend changes.

GBP/USD 15-Minute Chart

In the 15-minute **GBP/USD** pair chart, the **Stochastic Momentum Oscillator** line crosses above the signal line, indicating a **trend reversal** and the start of an uptrend. After a downward correction, the oscillator line crosses above the signal line, with the price continuing to rise to the **1.30080** range, signaling a bullish potential and confirming a buy signal in this time frame.

The downtrend in the Oscillator

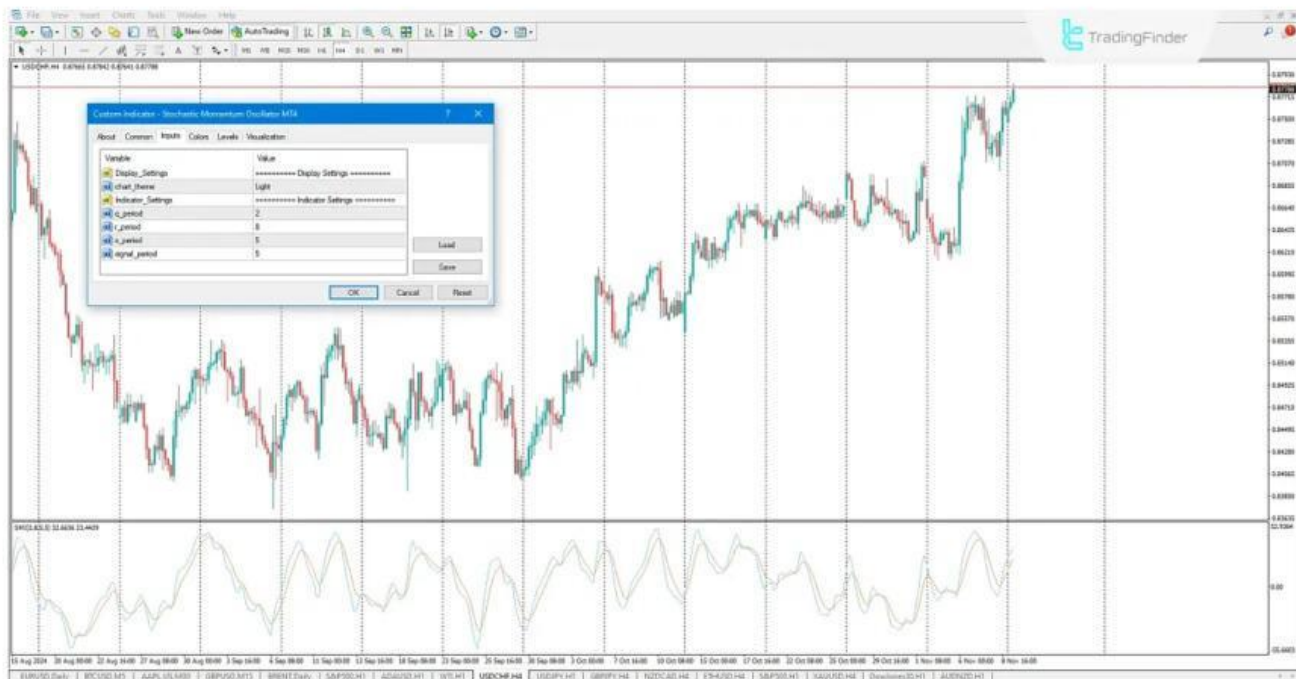

ADA/USD 1-Hour Chart

In the 1-hour **ADA/USD** pair chart, the **Stochastic Momentum Oscillator** line crosses below the signal line, indicating a trend reversal and the start of a downtrend.

After a downward correction and as the oscillator line crosses below the signal line, the price starts to decline, continuing to the **0.3085** range, indicating a bearish potential and confirming a valid sell signal in this time frame.

Oscillator Settings

USD/CHF 4-Hour Chart
