# iFVG + Void indicator for MT4 Download - Free - [Trading Finder]

The **Improved Fair Value Gap (iFVG + Void)** indicator for MetaTrader 4 is an updated and improved version of the fair value gap indicator.

FVGs refer to rapid and irregular price movements. **FVGs** are considered areas of **imbalance** between supply and demand, to which the price tends to return.

The **"iFVG + Void"** indicator combines fair value gap areas and void zones on the price chart for traders. The **MT4 ICT indicator** highlights bullish **FVGs** with a green box and bearish **FVGs** with a red box. Whenever an FVG is partially consumed, it **automatically** changes to gray.

Indicator at a Glance

The **Fair Value Gap and Price Voids (FVG+Void) Indicator** is an ideal tool for **traders** seeking to identify **Fair Value Gaps (FVG)** on price charts. With its unique feature, the indicator displays the **consumed portion** of the fair value gap area as it gets filled.
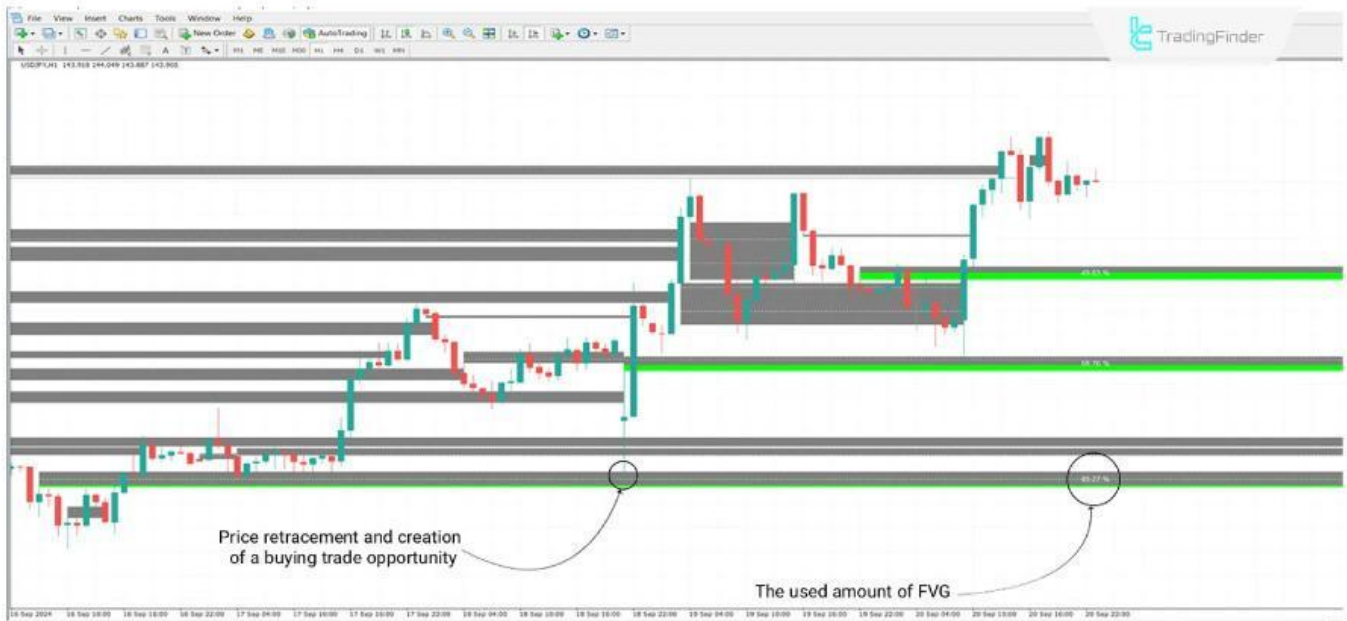

This tool helps traders better understand **price voids** and **fair value gap zones**, allowing them to utilize this information in their **analysis** effectively.

iFVG + Void in an Uptrend

According to the price chart of the **USD/JPY** currency pair on a 1-hour time frame, the indicator first identifies the price imbalance area and then plots a **green fair value gap box** on the chart.

The price, in the form of a retracement, encounters a **bullish** FVG, providing an opportunity for entering **long** positions.
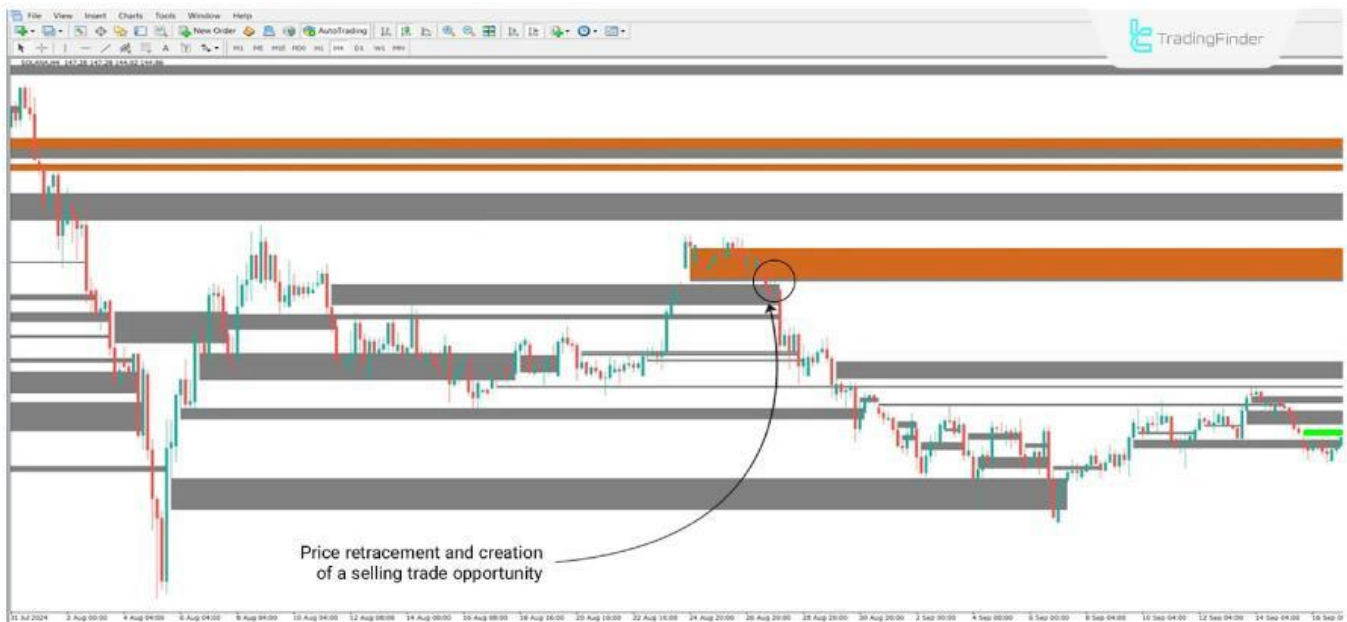

The number shown in the gray **FVG** section represents the amount of the **FVG** that has been consumed.
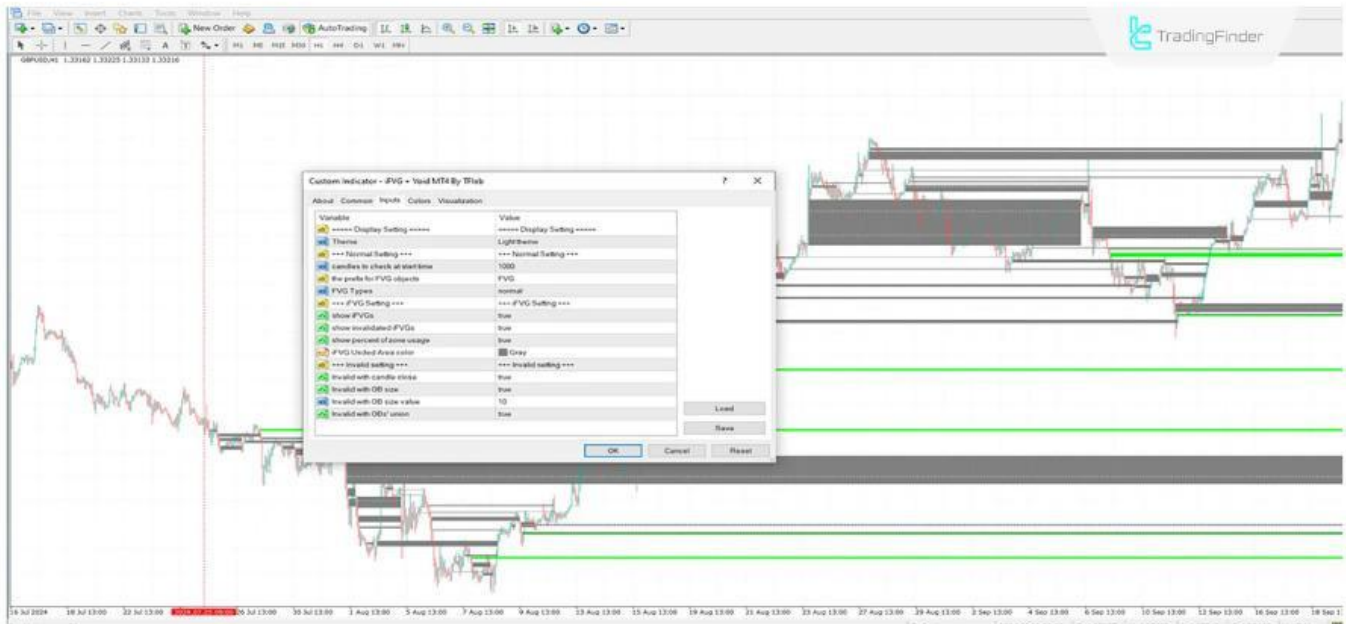

iFVG + Void in a Downtrend

According to the **Solana** cryptocurrency price chart, the indicator identifies the price imbalance area in a 4-hour time frame and then plots a **red fair value gap** box on the chart.

The price, in the form of a retracement, encounters a bearish **FVG**, providing an opportunity for entering **short** positions. **Gray boxes** represent consumed **FVGs**.

Indicator performance on the Solana price chart - 4 hour time frame
