[Chorus: Kali Uchis]

The sun'll come
Nothing good
I know times
But winners don't quit,
The sun'll
But we've been
Someday we'll
'Cause after the storm's

struggling endlessly
are rough
come out
when the flowers bloom
find the love
so don't you give up
ever comes easy
out

[Verse 2: Tyler, The Creator]

Kali, what you mean? I take it 16. _____

'Cause I'm the hottest 17. _____ boy that popped up
on the scene

Feeling better, better than ever

'Cause your 18. _____, -brella (-brel-la)

Sun is beaming on me like headlights beaming on Bambi
Now let's pretend the 19. _____ is the room and you

'Cause you drive me 20. _____, the Tito to my Randy
Now let's produce some 21. _____, my chocolate wit'

[Chorus: Kali Uchis]

[Bridge: Kali Uchis]

But did you even really try?
When everything is passing by
And all you had to do was try
And just open your mind
I know it's hard
Maybe you could understand
When all you had to do was ask
Yeah, all you had to do was try

[Outro: Bootsy Collins & Kali Uchis]

Try, try, try, try, try
And all you had to do was try
Try, try, try, try
