

Zigzag Multi Indicator on Trading View - Free - [Trading Finder]

The **Zigzag Multi Indicator** helps traders identify the overall market trend by connecting swing high and low points. These zigzag lines connect **pivotal points** from high to low and low to high, clearly showing significant price changes.

Using this [TradingView Indicator](#), traders can easily identify **classic patterns** like **head** and **shoulders**, triangles, and **Elliott waves** on charts, improving technical analysis and making better trading decisions.

Zigzag Multi-Indicator Table

Category	Pivot Point and Fractal - Levels and Zones - Elliott Wave
Platform	Trading View
Skill Level	Intermediate
Type of Indicator	Lagging - Reversal - Exit
Timeframe	Multi-Timeframe
Trading Style	Scalping - Day Trading - Intraday Trading
Trading Markets	Forex - Commodities - Indices

The uptrend in the Indicator

15-minute chart of EUR/USD

In the **15-minute EUR/USD** chart, the **Zigzag Indicator** clearly shows the market trend by plotting **higher highs (HH)** and **higher lows (HL)**.

By connecting these swing points, the Indicator displays the path of price changes, allowing traders to easily identify classic patterns and more accurately analyze the market trend.

Additionally, the **Zigzag Indicator** is useful for Elliott Wave analysis, helping traders better understand price waves and structures and adjust their trading strategies accordingly.

The downtrend in the Indicator

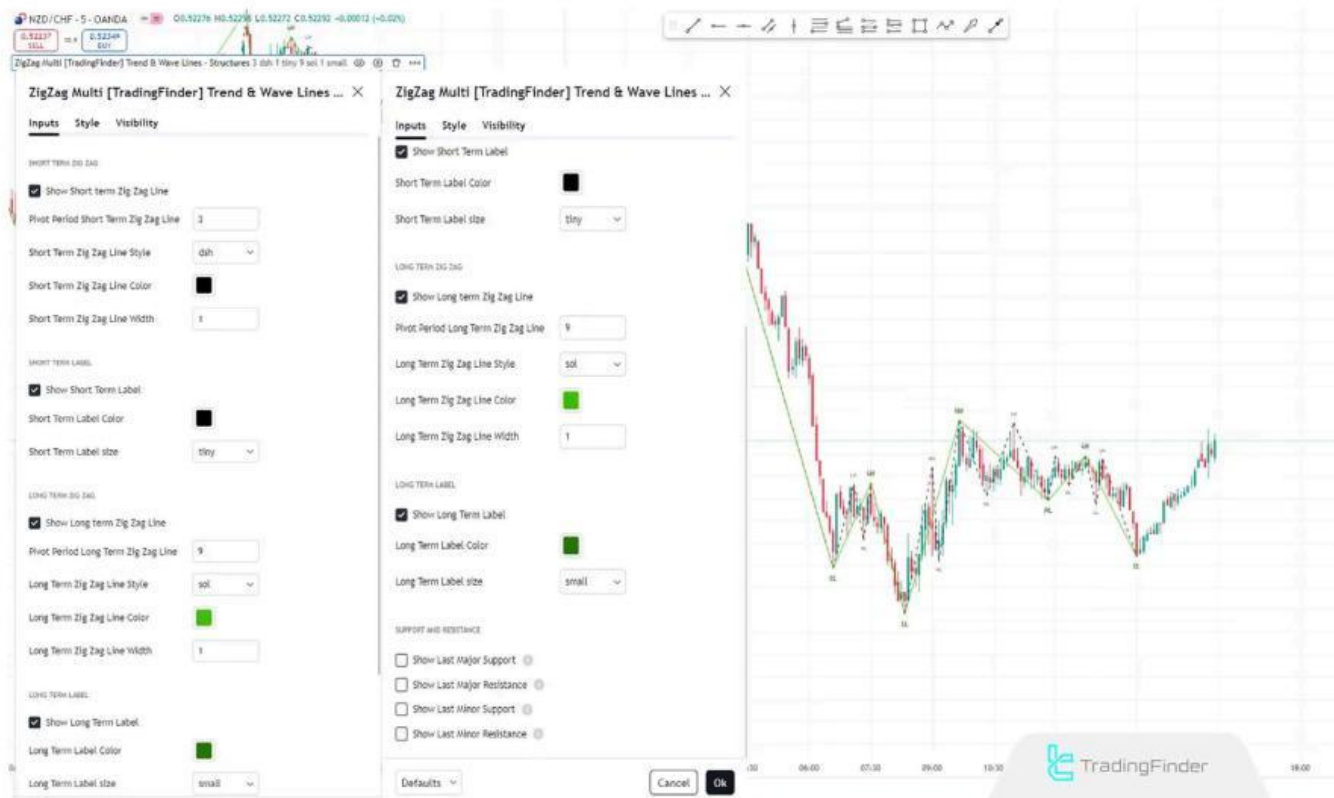

5-minute chart of USD/JPY

In the **5-minute USD/JPY** chart, the **Zigzag Indicator** shows the market trend by plotting **Lower Highs (LH)** and **Lower Lows (LL)**.

By identifying these lower high and lower low points, this Indicator indicates the market's downtrend and helps traders understand price changes more precisely.

The **Zigzag Indicator** simplifies the process of analysis for traders by showing more apparent market swing movements and drawing more precise highs and lows, aiding them in more effectively identifying uptrends and downtrends.
