You've Got Mail!

e-mail = electronic mail

examples: gmail, Hotmail, AOL, yahoo

An email address is like a street address.

A street address tells how to find a person's home.

An email address tells how to find a persosn online (on the internet.)

How do you say or read an e-mail address? Watch and learn!

Parts of an Email Address

The 2 main parts of an email address are the username and domain.

(name	Omi	nant	COL	n
(manne	OIII	Jany	.001	
•	-			

username		domain
The username is the person or	group you send	your email to.
The domain is where you can f	ind that person	on the internet
Name the 2 parts of an email	address. 1)	2)
Part one tells you		
Part 2 tells you		
What is the symbol co	nnects the 2 pa	rts?
The domain	n has 2 parts.	
The first part tells	the business or	group.
The second part tells the	e type of busine	ss or group
john.smith	@apple.co	m ← domain
username	business name	type of business
.com = business that	wants to make	money
.org = helping group th	at does not ma	ke money
.gov = gover	rnment group	
.edu = sc	hool group	
What type of business is	each group? Des	cribe them!
nike.com is a
