MACD 2 Line Oscillator for MT4 Download - Free [TradingFinder]

The **MACD 2 Line Indicator** is an updated and advanced version of the **"MACD"** oscillator for **Meta Trader 4**.

This **currency strength indicator** improves trading signals by displaying **two moving average** lines **(EMA)** in different colors and a **volume histogram** separately from the price chart.

It also provides a zero line that helps traders easily identify **overbought** and **oversold zones**.

LIVEWORKSHEETS

Specifications Table for the 2 Line MACD Indicator

This table includes some of the prominent features of the indicator:

Category	Oscillator - Signal and Prediction - Currency Strength
Platform	Meta Trader 4
Skill Level	Intermediate
Indicator Type	Continuation and Reversal
Timeframe	Multi timeframe
Trading Style	Day Trading
Trading Markets	All Markets

Uptrend Conditions

The 4-hour **Bitcoin (BTC)** price chart demonstrates how the **MACD 2 Line Indicator** works under uptrend conditions.

As shown in Arrow 1, the **fast EMA (blue line)** first crosses the slow **EMA (red line)** from below, signalling the beginning of an **uptrend** and an opportunity to **enter** a **long position**.

As indicated by **Arrow 2**, both the **fast moving average** and the histogram are above the zero line.

Downtrend Conditions

The daily chart of the **EUR/USD currency** pair shows how the **MACD 2 Line Indicator** works under downtrend conditions. The **arrow shows** that the **fast EMA (blue line)** first **crosses** the **slow EMA (red line)** from above.

Crossing the blue line below the red line can signal to enter a sell position. Afterwards, both **moving averages** and the histogram are below the zero line.
