A Scan the article about making wishes. Which three countries does it refer to?

MAKING WISHES

All over the world, people have always wished for things such as peace, love, good health, and money. Over hundreds of years, people in different countries have found different ways to make wishes. Here are some interesting examples.

The Trevi Fountain in Rome, Italy, is a place where many people go to make a wish. The water from the fountain flows into a large pool of water below. To make a wish, visitors stand facing away from the fountain. Then, they use their right hand to throw a coin into the pool over their left shoulder. They believe this will bring them luck and bring them back to Rome one day. The coins in the fountain, several thousand euros each day, are given to poor people.

A very different way of making wishes happens in Anhui province in eastern China. Huangshan (which means "Yellow Mountain") is famous for its beautiful sunrises and sunsets. That's why people think it is a very romantic place. Couples go there to make a wish that they will stay together forever. Each couple buys a "love lock," or padlock, with a key. Next, they lock their padlock to a chain at the top of the mountain. Then they throw the key down the mountain so that their lock can never be opened.

In Turkey and some neighboring countries, May 5th is a special day for making wishes. People believe that each year on that day two wise men return to Earth. They come to help people and give them good health. In the evening, there are street food markets selling different kinds of seasonal food and musicians playing traditional music. People write their wishes on pieces of paper and then attach the paper to a tree. Nowadays, however, some people go online and send their wishes to special websites.
