Introduction to TradingFinder's Forex Economic Calendar Tool

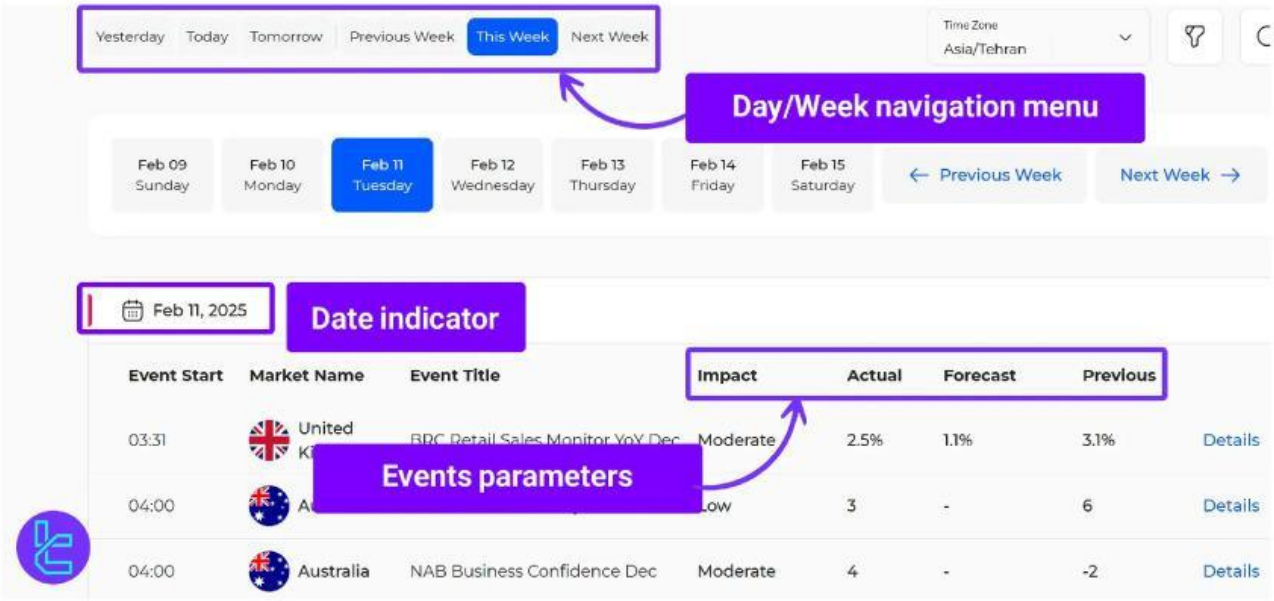

This service on the TradingFinder website displays financial market-affecting events in a **list** format on a **weekly/daily** basis with **date and time**.

There is an option to select a **preferred time zone** for the calendar along with **filtering** events based on **country**. This tool is **free** to use.

Key Features of TradingFinder's Economic Calendar Tool

The Economic Calendar tool on TradingFinder offers traders the following capabilities:

- **Explanation of Events**: Display of "details" for most events;
- **Navigation between days and weeks**: Access to options for quick jumping to previous or next days and weeks;
- **Multiple Time Zones**: Various options for setting your preferred time zone on the calendar;
- **Global coverage**: More than 150 countries.

Understanding the Economic Calendar Table Values

TradingFinder's Forex Economic Calendar tool displays **4** parameters for each event in addition to **Event Start**, **Market Name**, and **Event Title**:

- **Impact**: Event importance level and its effect on related financial markets in 3 levels [low, medium, and high];

LIVEWORKSHEETS

- **Actual**: Official rate announced by the country for data in the current period;
- **Forecast**: Predicted value for data in the upcoming period;
- **Previous**: Officially announced rate from the previous year/period of the event.

How to Use the Forex Economic Calendar Tool? User Guide!

Here are the steps to use this tool:

1. **Set time zone**: Select your local time from the **"Time Zone"** menu at the top of the calendar
2. **Filter events**: If needed, click the funnel-shaped button on the left side of the page to filter the calendar based on country and impact level
3. **Select day or week**: Through the options above the list, specify the day or week to view events.

In addition to being available on-site, this Trading Finder tool is also available as **Economic Calendar Mini App** and **Forex Economic Calendar extension**; You can use them for free.

Purpose and Importance of Economic Calendar

Events such as **interest rate** decisions and **CPI reports** published in the forex economic calendar are the primary motivators for financial markets' **volatilities**; analysts determine the **entry** and **exit** points by combining these data with technical indicators and risk management. Additionally, the economic calendar is useful for:

- **Predicting** market and price trends;
- More precise **risk management**;
- Identifying **Market Sentiment** in countries.
