

Unicorn + SFP Indicator MetaTrader 4 Download - Free - [Tradingfinder]

The **Unicorn + SFP Indicator** is a hybrid tool based on **Liquidity** and the **ICT strategy**. A **Unicorn Zone** is formed by the overlap of a **Breaker Block** and a **Fair Value Gap (FVG)**, indicating a high probability of price reversal in these areas.

The **Swing Failure Pattern (SFP)** refers to a false breakout of a level, signaling potential **liquidity hunting** and a possible trend reversal.

Specifications of the Unicorn + SFP Indicator

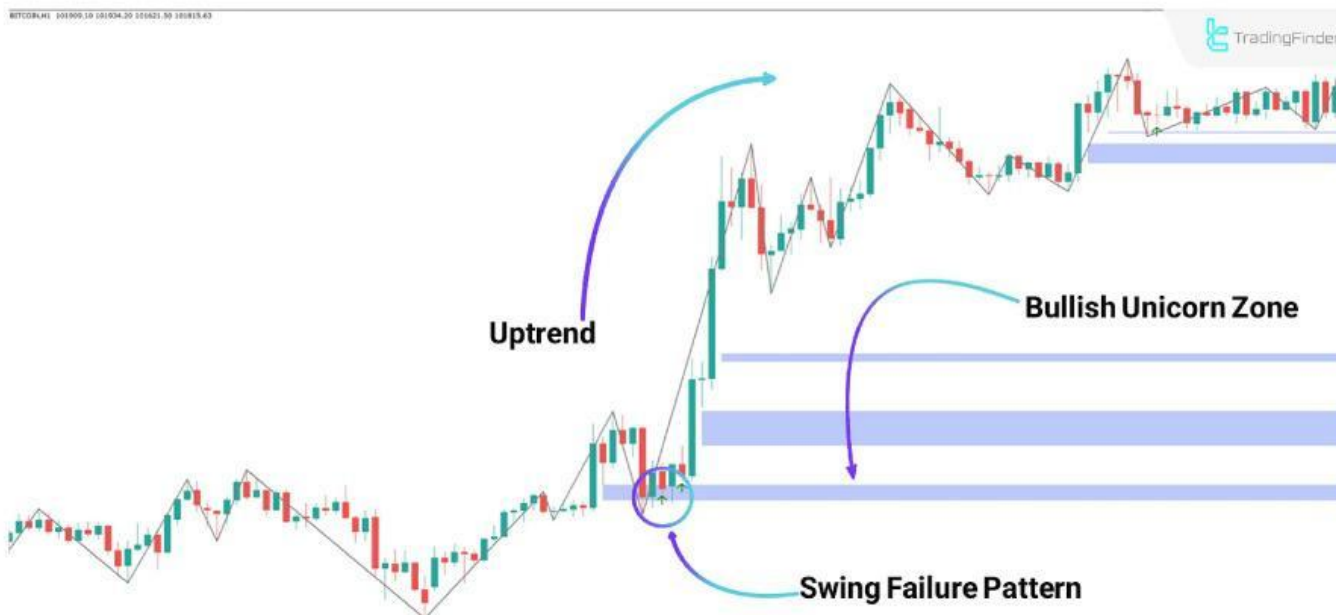

The features of the tool are briefly reviewed in the table below:

Category	ICT - Liquidity - Smart Money
Platform	MetaTrader 4
Skill Level	Advanced
Indicator Type	Reversal - Continuation
Timeframe	Multi timeframe
Trading Style	Day Trading
Market	All Markets

How the Indicator Works in an Uptrend

Based on the analysis of **Bitcoin (BTC)** price charts in a 1-hour timeframe, the indicator highlights **Bullish Unicorn Zones** with a light purple box.

When the price returns to this zone, if it falsely **breaks** through the Unicorn area, the **Swing Failure Pattern** is formed, which the indicator displays with a **green arrow**.

How the Indicator Works in a Downtrend

The indicator marks **Bearish Unicorn Zones** with a pink box. As shown below, the price falsely breaks through the zone, forming the **Swing Failure Pattern (SFP)**.

In this case, the indicator marks the pattern with a **red arrow**.

- ⚡ **Unicorn Show:** Enables the display of Unicorn Zones;
- ⚡ **SFP Mode:** Sets the type of Swing Failure Pattern;
- ⚡ **SFP Show:** Displays the Swing Failure Pattern.

Conclusion

The **Unicorn + SFP Indicator** is a hybrid tool combining two core concepts **Unicorn Zones** and **Swing Failure Patterns**.

Unicorn Zones are formed by the overlap of **Breaker Blocks** and **Fair Value Gaps**, which the indicator visually marks with colored boxes.

The **Swing Failure Pattern (SFP)** represents false **breakouts**, highlighted by arrows, enabling traders to identify potential **liquidity** hunting and reversals.
