

Market Maker X Model (MMXM) Indicator for MetaTrader 4 Download - Free - [TFlab]

The **Market Maker Model Indicator (MMXM)** is a specialized tool that provides signals in critical price zones. This indicator automatically displays **Fair Value Gaps (FVG)** from higher timeframes on the chart. Additionally, it highlights **price highs (BSL)** and **price lows (SSL)** within these FVG zones as dashed lines.

If the price crosses the dashed line and liquidity is collected, a **Change of Character (CHoCH)** or **CISD** identified by the indicator is marked with a purple arrow.

MMXM Indicator Specifications

The table below highlights the key points of this indicator in a brief manner:

Category	ICT - Liquidity - Signal and Forecasting
Platform	MetaTrader 4
Skill Level	Intermediate
Indicator Type	Continuation - Reversal
Timeframe	Multi-Timeframe
Trading Style	Day Trading
Market	Forex - Cryptocurrencies

MMXM Indicator in a Bullish Trend

In the price chart of **USD/JPY** in the **30-minute timeframe**, the indicator marks bullish FVG zones in green. After collecting liquidity, the price exits the FVG zone upwards with a **CISD** and displays a **Buy Signal** following a **CHoCH**.

USD/JPY Price Chart Using the MMXM Indicator

MMXM Indicator in a Bearish Trend

The price chart of **USD/CAD** in the **1-hour timeframe** shows bearish FVG zones in red. The price exits the FVG zone downward for liquidity collection with a **CISD**, and a Sell Signal is displayed upon retracing to the FVG zone.
