

Professional Swing Indicator for MT4 Download - Free - [TradingFinder]

The **Professional Swing Indicator** utilizes colored histogram bars to display the direction and strength of the trend. This **MetaTrader 4 oscillator**, in addition to showing trend movement changes, also generates **entry signals** using indicators to assist in trade execution.

The Professional Swing Indicator visualizes **upward** trends with light **blue** bars and **downward** trends with **brown histograms**.

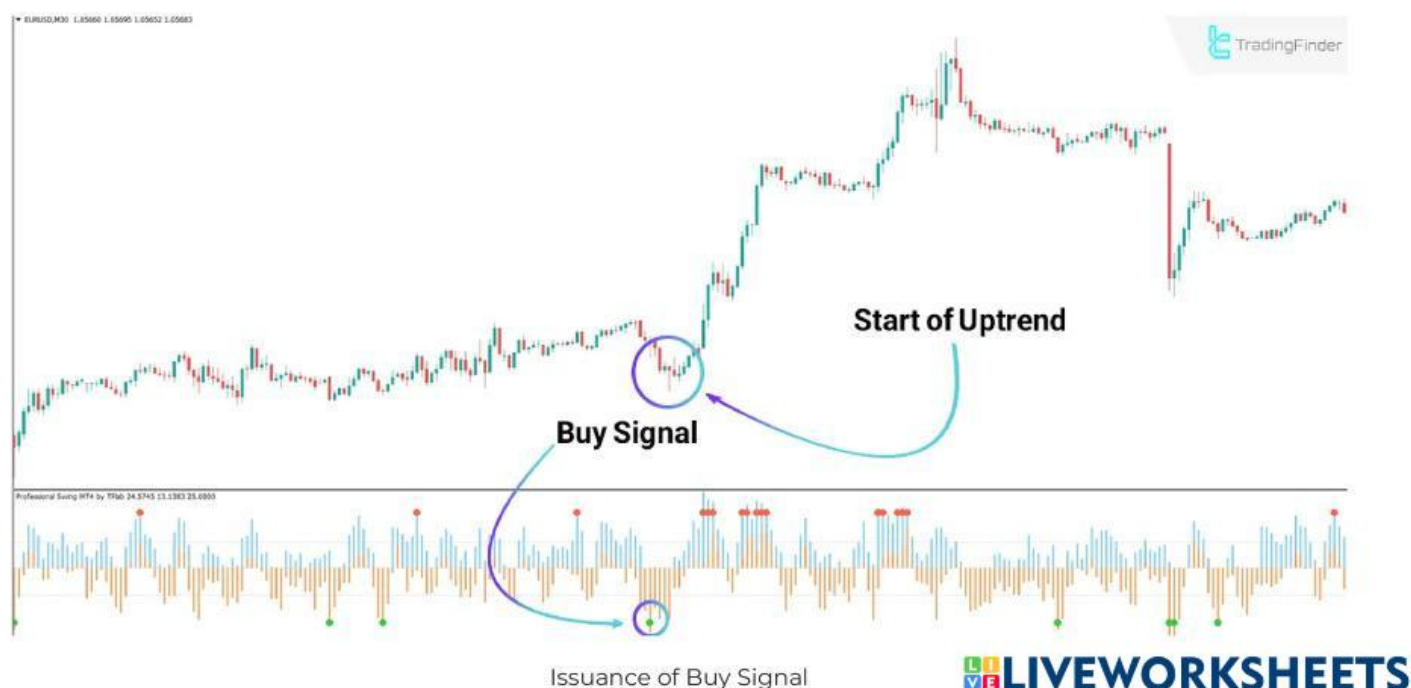

Specifications Table for the Professional Swing Indicator

Category	Oscillator - Currency Strength - Signal and Prediction
Platform	MetaTrader 4
Skill Level	Beginner
Indicator Type	Reversal - Continuation
Timeframes	Multi Timeframe
Trading Style	Day Trading
Market	All Markets

Buy Signal in Uptrend

The **EUR/USD** price chart in a **30-minute timeframe** demonstrates how the indicator functions during an **uptrend**.

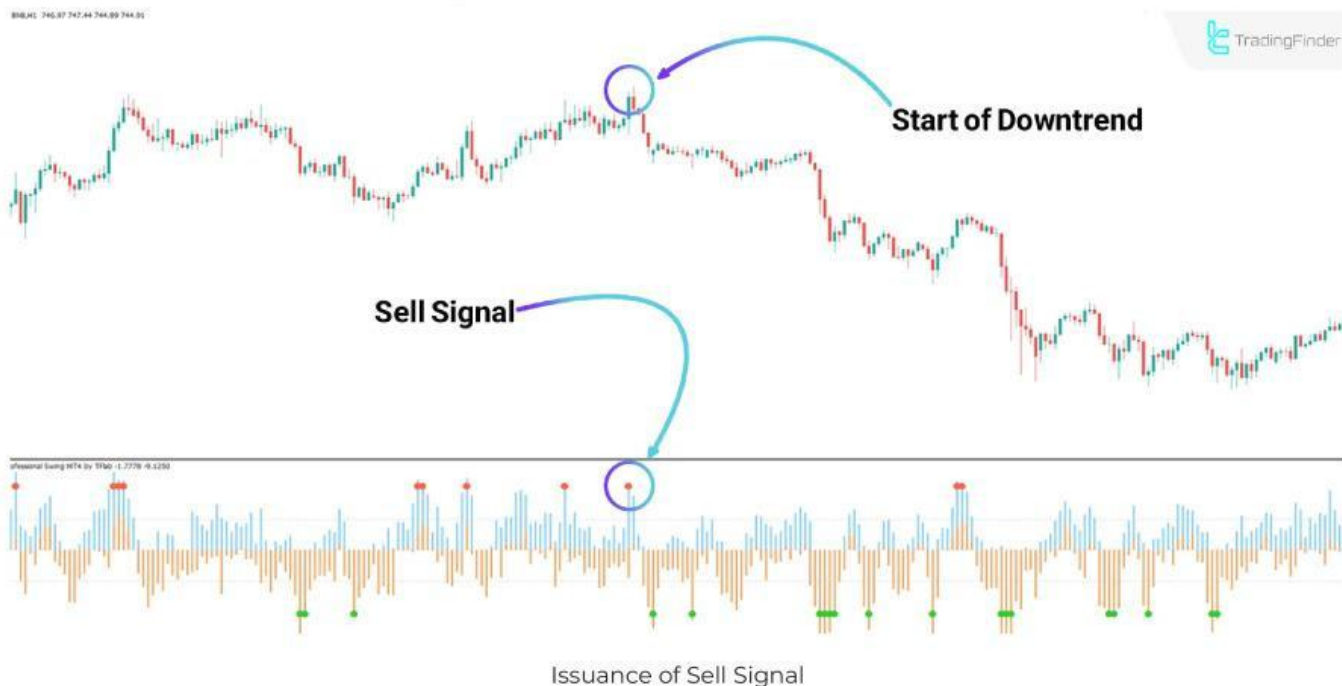

The sequential formation of light **blue bars** shows the trend direction, while the appearance of a **green** marker below the **zero line** indicates an **entry point** for a **Buy position**.

Sell Signal in Downtrend

As seen in the **BNB** cryptocurrency price chart in a **1-hour timeframe**, the indicator issues a **Sell** signal using a **red marker**.

The sequential formation of **histogram** bars also confirms the continuation of the **downward trend**.

Indicator Settings

Review of the Professional Swing Indicator Settings

⚡ **Chart Theme:** Customize the appearance of the indicator.

Conclusion

The **Professional Swing Indicator** is a precise tool for identifying trend **direction** and **reversals**. This **MT4 signal and forecast indicator** uses **histogram** bars and point markers to provide **entry** and **exit** signals for trades.
