

FVG & Inversion Fair Value Gap (IFVG) ICT Indicator to TradingView - Free - [TFlab]

FVG & IFVG ICT [TradingFinder] Inversion Fair Value Gap Signal by TFlab

[TradingView.com](https://tradingview.com)

The **FVG and Inverse Fair Value Gap Indicator** is a tool for analyzing and mapping **FVG** and **IFVG** zones.

This **TradingView ICT indicator** identifies **FVG zones** and marks them with green boxes(**bullish FVG**) or red boxes (**bearish FVG**). If these zones turn into **IFVG** areas, they are displayed with a gap and **color change**.

	Share Stocks Tradingview Indicators	

Bullish Trend Conditions

The trend breaks the Fair Value Gap (red box), turning it into an Inversion Fair Value Gap (IFVG).

According to the chart of the **Cardano** cryptocurrency (**ADA**) on a 15-minute timeframe, the current zone (green box) supports the price in its return from the **bullish** trend.

Bearish Trend Conditions

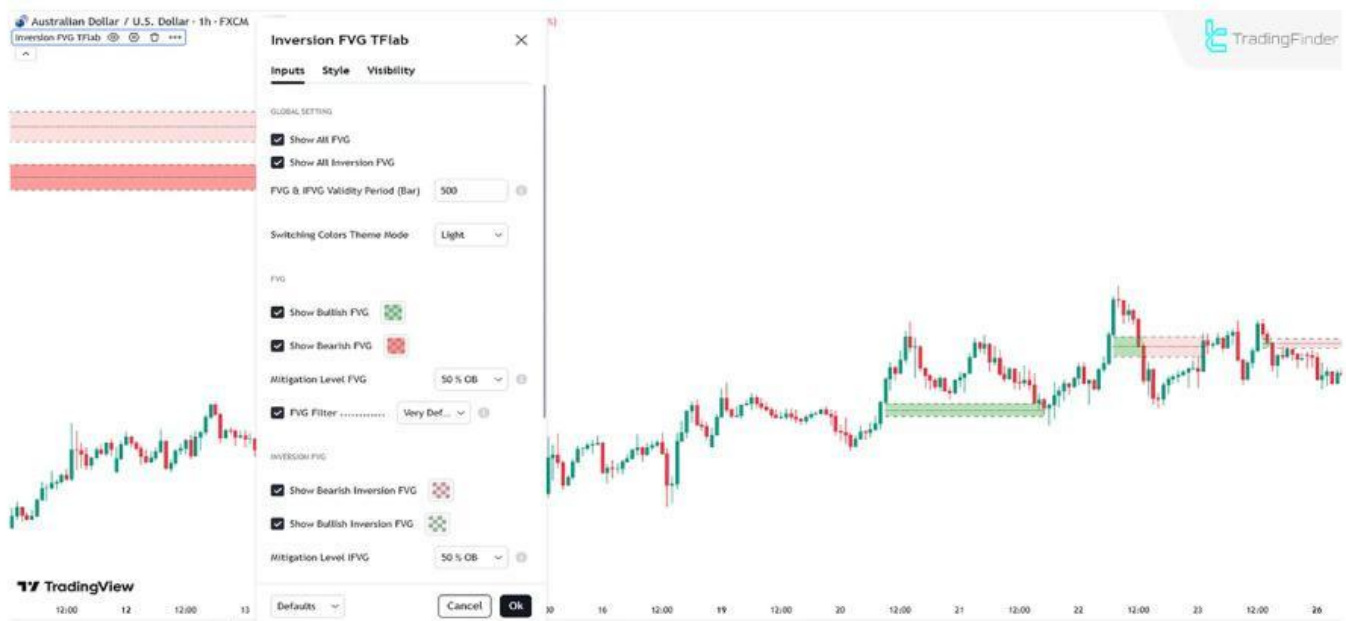

As shown in the price chart of the **AUD/USD** currency pair on a 1-hour timeframe, the **bullish FVG** zone is broken by the price and turned into a **bearish IFVG** zone.

In a bearish trend, the IFVG zone acts as resistance, causing the **bearish trend** to resume.

FVG and IFVG zones in the AUD/USD currency pair chart
