

Name: _____

Class: _____

Matching algorithm with Java Code

Instruction : Identify and match with the right Java code.

Pseudocode	Java code
Start	
Read milimeter	
meter = milimeter / 1000	
Print meter	
Stop	

Drag and drop your answer.

```
System.out.print("The value in meter is " + meter);
```

```
Scanner sc = new Scanner (System.in);
```

```
meter = milimeter / 1000;
```

```
System.out.print("Enter milimeter value: ");
```

```
}
```

```
double milimeter, meter;
```

```
{
```

```
milimeter = sc.nextDouble( );
```
