

Judas Swing ICT Setup 03 + (CHOCH, FVG) Indicator on TradingView - Free

The **Judas Swing Setup 03 Indicator (Judas Swing ICT)** is designed to identify **price traps** and prevent traders from entering **erroneous trades**. This indicator first identifies the **highs and lows** within the **8:15 to 8:30 AM** time interval.

During this interval, the **Judas Move** occurs, and a **level break** with a "**CISD**" between **8:30 and 8:45 AM** defines the **trend conditions**. Identifying **deceptive price movements** and avoiding **market maker traps** is one of the main challenges for **traders**.

Judas Swing Indicator Specifications

Below is a table detailing the features and functionality of this indicator:

Category	ICT - Smart Money - Signal and Prediction
Platform	TradingView
Skill Level	Advanced
Indicator Type	Continuation - Reversal
Timeframe	1 Minute
Trading Style	Fast Scalping - Scalping
Market	Forex - Cryptocurrency

Indicator in an Uptrend

In the 1-minute chart of the EUR/USD pair, the price breaks through the low drawn by the indicator during the 15-minute timeframe with a deceptive move. The indicator first identifies key zones, including **Order Blocks** and **Fair Value Gaps (FVG)**.

The price then grabs liquidity from these zones, triggering a **Change of Character (CHoCH)** that initiates an uptrend. This change signifies the start of an uptrend, and the indicator issues an entry signal for trading.

Judas Swing Setup 3 Indicator in an Uptrend

Indicator in a Downtrend

In the 1-minute chart of the GBP/USD pair, the price initially performs a false breakout of the high drawn by the indicator. Then, with a **Change of Character (CHoCH)** and a return to the **Order Block zone**, sufficient liquidity is gathered to initiate a downtrend.

The indicator identifies these changes and issues a **sell signal**.

Analysis of a Downtrend in Judas Swing Setup 03 Indicator
