Unit 2: In the Future
Learning objective: to show comprehension of the vocabulary and the verb will.

Camila Riquelme Tapia
ESOL Teacher
Shiloh High School

Life in the Future.

Activity 1: Vocabulary Matching

Match the words with their definitions. Use the numbers.

1.	Renewable energy	a.	_____ Not harmful to the environment.
2.	Virtual reality	b.	_____ It comes from sourced like wind or solar power.
3.	Telemedicine	c.	_____ Care given remotely using technology.
4.	AI (Artificial Intelligence)	d.	_____ A digital world you can explore with special glasses.
5.	Eco-friendly	e.	_____ Machines that can think and act like humans.

Activity 2: Fill in the Blanks (Future Simple: *will* + verb)

Complete the sentences with the correct form of the verbs in the box.

use - live - work - travel - cure - learn – protect

1. In the future, doctors _____ many diseases with advanced medicine.
2. People _____ more renewable energy to help the planet.
3. Students _____ from home using virtual reality classrooms.
4. Robots _____ in factories instead of humans for dangerous jobs.
5. We _____ to other planets for vacations.
6. Governments _____ forests and endangered animals better.
7. Smart homes _____ our daily lives easier.

Activity 3: Reading comprehension

"A Day in 2050"

In the future, life **will** be very different. People **will** live in smart homes where robots **will** do chores like cooking and cleaning. Cars **will** drive themselves using AI, and traffic accidents **will** decrease. Doctors **will** use telemedicine to treat patients online, and many diseases **will** be cured with advanced technology.

Students **will** not carry heavy books—they **will** learn using virtual reality glasses. Pollution **will** reduce because companies **will** use renewable energy. Some people **will** even travel to space for vacations! However, we **will** still need to protect nature and work together for a better world.

LIVEWORKSHEETS
