C. READING: (3.0 points)

PART 1. Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 19 to 24. (1.2 points) 110 từ.

In the future, houses and appliances will be more hi-tech and efficient. They will use solar energy and include smart devices such as washing machines, dishwashers, and electric cookers. These appliances will be wireless and able to communicate with each other. For example, your electric cooker might tell your fridge when to cool down after cooking.

Many future homes will be built in unusual places, such as underwater or even in outer space. Housework will be much easier because many appliances will work automatically. People will spend less time doing chores and more time relaxing or working on other things. Some homes might even have helipads for personal helicopters, making travel faster and more convenient.

(NB) Question 19. What type of energy will future homes use?

- A. Wind energy
- B. Solar energy
- C. Water energy
- D. Battery power

(NB) Question 20. What special feature will appliances in future homes have?

- A. They will work slowly.
- B. They will need more electricity.
- C. They will be wireless and smart.
- D. They will be used only for cooking.

(NB) Question 21. Where might future homes be built?

- A. In deserts
- B. On the moon
- C. On high mountains
- D. Underwater or in space

- A. clothes
- B. machines in the home
- C. buildings
- D. activities

(TH) Question 23. Which of the following is TRUE according to the passage?

- A. All homes will be built on land.
- B. People will do more chores in the future.
- C. Solar energy is used in future homes.
- D. Dishwashers will stop working.

(TH) Question 24. Why will people have more free time in the future?

- A. Because appliances will work automatically.
- B. Because houses will be smaller.
- C. Because they will live in space.
- D. Because they won't cook meals.

PART 2. Read the following passage and mark the letter A, B, C, D on your answer sheet to indicate the best answer to each of the following questions from 25 to 29. (1.0 point) 109 từ.

Moon Houses in the Future

In the future, people may live in houses on the moon. The best place to build these houses will be underground because it is safer and helps control extreme temperatures—not too hot during the day and not too cold at night. Some houses may also be made of balloons filled with oxygen. Since there is no air on the moon, people will wear oxygen masks when they go outside.

Inside, there will be beds, tables, and chairs so people can sleep, eat, and work normally. Living on the moon may seem hard, but with modern technology, moon houses could be real and comfortable.

(TH) Question 25. What is the main idea of the passage?

- A. The moon will be too cold for houses
- B. People will grow food on the moon
- C. People will wear oxygen masks inside the houses
- D. Technology may help people live on the moon

(NB) Question 26. Where will moon houses mostly be built?

- A. On top of mountains
- B. Underground
