Good morning, everyone. Here's my creation, a plastic lantern. This lantern is not just like a common lantern, but I made it special. It's a round colorful lantern. I made it from a plastic bottle that I cut and shaped into a round lantern.

As you can see, there is a light bulb inside the lantern. I put the light bulb near the neck of the bottle so the lantern could be brighter. There is also a string to hang the lantern.
