Bullish Trend Conditions

In the **4hour** chart analysis of the **GBP/USD** pair, the price was tested in the "**HTF PD**" demand zone.

Under these conditions, a "**MSS**" or "**CHoCH**" zone can be established, and an arrow can be drawn to initiate a **buy position**.

Guide to Identifying Bullish Trend Initiation Using ICT MMXM Indicator

Bearish Trend Conditions

In the 1hour chart of the **EUR/USD** pair, after interacting with the **"HTF PD"** supply zone, the price has gathered the necessary **liquidity** and turned bearish.

The formation of an **"MSS"** or **"CHoCH"** line confirms the price drop.
