

One Shot One Kill Indicator for MetaTrader 4 Download - [TradingFinder]

The **One Shot One Kill ICT** indicator is an advanced concept within the **ICT style**, designed to identify low-risk **entry points** in financial markets.

This indicator aligns with price action analysis, offering trading signals based on **trend reversals** or **continuations**.

One Shot One Kill Specification Table

Below is the specification table for the **One Shot One Kill** tool in the ICT style:

Category	ICT – Smart Money – Liquidity
Platform	MetaTrader 4
Skill Level	Advanced
Indicator Type	Breakout - Reversal
Timeframe	Multi Timeframe
Trading Style	Intraday
Trading Market	All Markets

Uptrend Conditions

In the **NZD/USD** currency pair's 5-minute timeframe chart, a price floor forms at **16:30** (broker time zone) and during the release of **significant news (Forex Factory Orange News)**. Consequently, after the **CISD line** breaks, a **blue arrow** is displayed.

Additionally, when the trend retraces to the **CISD line** within **15 candles**, a red arrow generates an entry signal.

Downtrend Conditions

The chart below displays the **USD/CHF** currency pair in a 5-minute timeframe. The **MT4 ICT indicator** identifies **price gaps** (indicating buyer-seller imbalance).

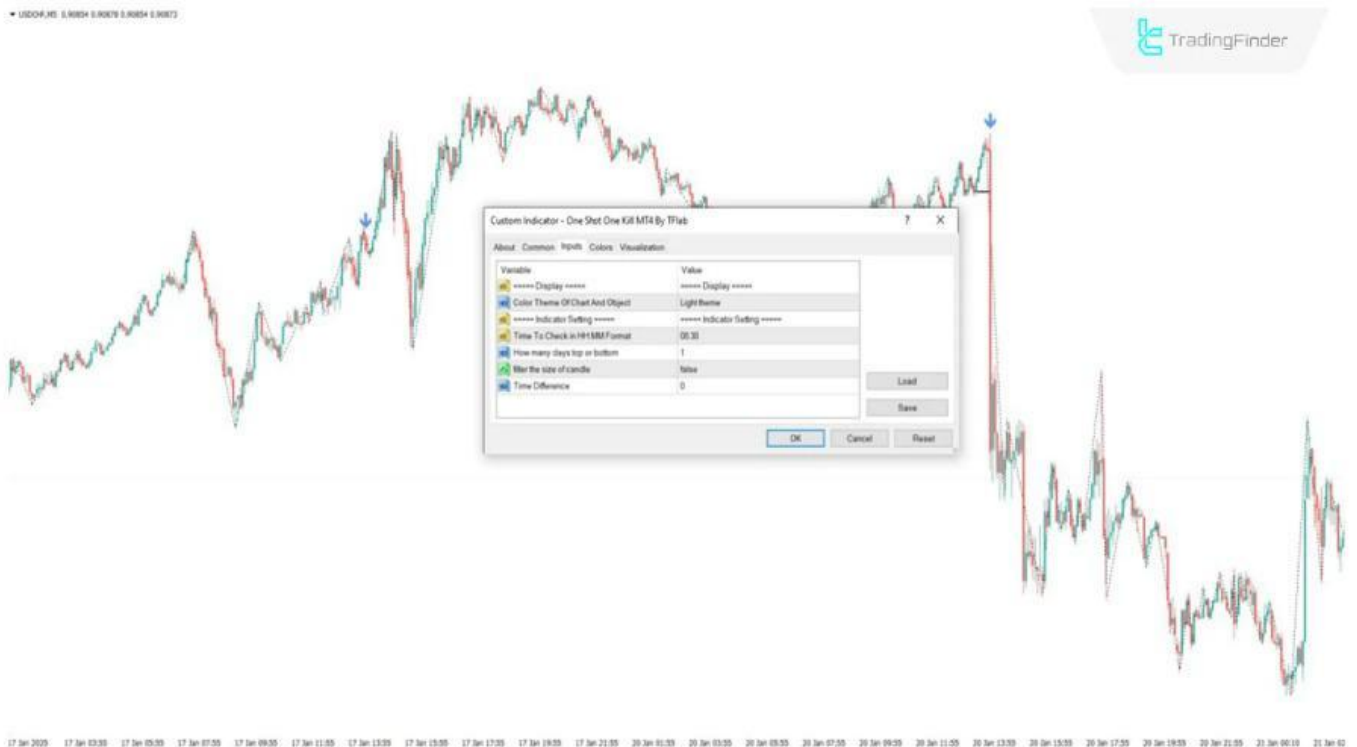

Breaking the last **price floor** and **considering** major economic news generates a **sell signal** (indicated by the **red arrow**) as the **CISD line** breaks, and the candle returns to this line.
