5 Two ways to get chores done

A Scan this article. What is different about the two computer apps for children's chores? Choose.

ChoreMonster is an app that allows parents to set up a chart of chores on a computer or cell phone for their children. When the kids complete their chores, they win cute little monsters that can be added up for a reward that their parents have agreed upon. For chores like cleaning their room, vacuuming the house, or washing the car, kids can earn a toy or something fun to do.

But wait! Will the cute little monsters that satisfy children between the ages of four and twelve satisfy a teenager? Let's take a look at another app to see what can happen when children become teenagers.

VexBox is not an app based on rewards. Instead, it is designed to frustrate, or vex, teenagers who don't do their chores. VexBox slows down computer connections until the teen completes a chore. It can take teenagers ten minutes to download their favorite song! The idea is that teens will do anything, even their chores, so they can get back to using the Internet at full speed.

Most teens do not like VexBox. That's the idea, of course. If they do their chores, then their parents won't use it!

B Read the article. Then choose the best answer for these questions.

1. Do you think computer apps for chores are a good idea? Why or why not?

2. Would you use ChoreMonster for a young child? Why or why not?

3. Smartphones are not affected by VexBox. Would that be a problem for parents with teenagers where you live? Why?

6 Rewrite these sentences. Find another way to say each sentence using the words given.
